5. BRANDING SERVICE:

Your brand is more than a logo, a name, or a color palette. At a fundamental level, it defines who you are as a firm. Branding determines how people perceive your company and, when done well, can trigger an emotional reaction at every touch point. Branding services may assist businesses with whatever issue they are facing, whether it is creating a brand identity from scratch or just finding a better method to express their core narrative and corporate values. It takes time and effort to build a strong brand. Our branding services use a combination of research, creativity, and consulting to uncover your story.

7. CONTENT MARKETING:

- Improve brand reputation by building trust through content marketing:
- Great content helps influence conversions:
- Creating great content is a cost-effective way to bring in new leads:
- Content enables your brand to showcase your subject matter expertise:
- Want to build relationships with customers? Publish great content
- Content marketing helps you set yourself apart from competitors

6. OUR SOCIAL MEDIA MARKETING PROCESS:

1. Audience Analysis

We perform social media optimization by reviewing your existing social media profile, content and audience before crafting a personalized strategy.

2. Develop Content

After reviewing your profile, we develop a content schedule, provide copywriting and graphic design solutions for your business to appropriately engage and excite your audience.

3. Schedule Posting

We schedule posts based on time of the day when your target audience is most active on your key social media marketing platform.

4. Reporting

Each month, we generate and send you a report with an analysis of your social media marketing activity and performance.

Medical Supplies & Services House

Omnicef®

Cefaclor

Omnicef® is Clinically Effective in Treating USSTI
Omnicef® should be considered as a viable option for the therapy of USSTI is due to:

- Susceptibility
- Concentration
- Clinical Efficacy

Gram positive isolates of USSTI pathogens susceptibility:

% susceptibility	S. aureus	S. pyogenes
	%100	%100

Omnicef was the most potent oral cephalosporin tested against staphylococci and the Enterobacteriaceae species, and 8-fold to 64-fold more potent than cephalixin against these pathogens².

Only 0.5% of all 415 recent CA-SSTI pathogens were resistant to Omnicef (MIC, > or = 4 mg/L)².

USSTIs: Uncomplicated Skin and Skin Structure Infections
CA-SSTI: Community Acquired Skin and Skin Structure Infections
